

# Søgeprotokol for Nationale Kliniske Retningslinjer

<b>Projekttitel/aspekt</b>	NKR for <b>Dobbeltbelastet Alkoholafhængighed - Guidelines</b>
<b>Projektgruppe</b>	Pernille Pinderup Jeppesen (fagkonsulent) / Marie Jakobsen (projektleder)
<b>Søgespecialist</b>	Kirsten Birkefoss
<b>Senest opdateret</b>	13/4-2015

<b>Baggrund</b>	<p>Mennesker med psykisk lidelse og samtidig afhængighed af alkohol og/eller stoffer kaldes 'dobbeltbelastede' eller mennesker med en dobbeltdiagnose. Der er tale om en heterogen gruppe af patienter med forskellige diagnosekombinationer, typer af afhængighed mv.</p> <p>Det vurderes, at godt halvdelen af de mennesker, der søger behandling for alkoholafhængighed, er dobbeltbelastede, dvs. at de også har en psykisk lidelse.</p> <p>Mennesker med en psykisk lidelse og samtidig afhængighed af alkohol er en gruppe, som behandlingssystemet på alle niveauer har haft vanskeligheder med at give relevante behandlingstilbud. I den psykiatriske og psykosociale indsats kan alkoholafhængigheden opleves som en barriere for behandling af den psykiske lidelse. På samme måde kan mennesker med psykiske lidelser, herunder navnlig mennesker med psykoser, opleves som vanskelige at håndtere i alkoholbehandlingsinstitutioner.</p>

### Note:

- Guidelines fra firmaet Hayes er fra valgt for denne NKR
- Søgetermer og inklusions- og eksklusionskriterier er tilpasset de enkelte databaser.
- Dubletter er så vidt muligt frasorteret ved hjælp af RefWorks. De fundne referencer overføres til fagkonsulenten i Covidence.
- Fuldtekster præsenteres i Covidence i pdf-format eller som link
- Søgestrategi for hver enkelt database præsenteres – hvis muligt vises det eksplicit hvor mange referencer den enkelte søgestreng genererer
- Covidence = webbaseret referencehåndteringssystem og kvalitetsvurderingsværktøj
- MAGIC = online skabelonværktøj til guidelines
