

Characteristics of studies

Characteristics of excluded studies

Abikoff 1985

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Abikoff 2013

Reason for exclusion	Wrong intervention
----------------------	--------------------

Anonymous 2015

Reason for exclusion	Wrong study design
----------------------	--------------------

Azad 2014a

Reason for exclusion	
----------------------	--

Bernstein 2015

Reason for exclusion	
----------------------	--

Carlson 2000

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Carlson 1992

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Catala Lopez 2015

Reason for exclusion	Review
----------------------	--------

Chang 2004

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Cionek Szpak 2012

Reason for exclusion	Wrong intervention
----------------------	--------------------

Corkum 2005

Reason for exclusion	Only parent training programme.
----------------------	---------------------------------

Döpfner 2004

Reason for exclusion	Intervention not eligible.
----------------------	----------------------------

Ercan 2005

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

ESCAP 2013

Reason for exclusion	Wrong intervention
----------------------	------------------------------------

Evans 2000

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Fabiano 2003

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Feinfield 2004

Reason for exclusion	Not children with ADHD.
----------------------	-------------------------

Fenstermacher 2006

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Frankel 1997

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Frölich 2002

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Gadow 1985

Reason for exclusion	Article - not a trial.
----------------------	------------------------

Gol 2005

Reason for exclusion	Control group without ADHD.
----------------------	-----------------------------

Gonzalez 2002

Reason for exclusion	Not social skills training.
----------------------	-----------------------------

Haydicky 2012

Reason for exclusion	Wrong intervention
----------------------	--------------------

Hinshaw 1984

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Hinshaw 2000

Reason for exclusion	Not a suitable outcome.
----------------------	-------------------------

Horn 1990

Reason for exclusion	Not a control as specified in the review protocol.
----------------------	--

ICBM 2012 Meeting

Reason for exclusion	Wrong intervention
----------------------	--------------------

Jensen 1999

Reason for exclusion	A review.
----------------------	-----------

Jensen 2001

Reason for exclusion	Not adding relevant data to the review.
----------------------	---

Klein 1997

Reason for exclusion	Not social skills training.
----------------------	-----------------------------

Kolko 1990

Reason for exclusion	Not all of the children was diagnosed with ADHD.
----------------------	--

Kolko 1999

Reason for exclusion	Not social skills training.
----------------------	-----------------------------

Langberg 2008

Reason for exclusion	Not social skills training.
----------------------	-----------------------------

Langberg 2010

Reason for exclusion	Not a suitable outcome for this review.
----------------------	---

Lim-Ashworth 2013

Reason for exclusion	Wrong patient population
----------------------	--------------------------

Lösel 2006

Reason for exclusion	Participants under five years of age.
----------------------	---------------------------------------

Miranda 2002

Reason for exclusion	Intervention for the teachers, not a clinical ADHD diagnosis.
----------------------	---

Miranda 2006a

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Miranda 2006b

Reason for exclusion	Review.
----------------------	---------

Molina 2008

Reason for exclusion	The control group is not suitable.
----------------------	------------------------------------

MTA 2009

Reason for exclusion	Not adding necessary data to the review.
----------------------	--

Ostberg 2012

Reason for exclusion	Wrong intervention
----------------------	------------------------------------

Pelham 1980

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Pelham 1993

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Pelham 2000

Reason for exclusion	No relevant data for the review.
----------------------	----------------------------------

Pelham 2005

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Power 2012

Reason for exclusion	Wrong intervention
----------------------	------------------------------------

Rosén 1984

Reason for exclusion	Not social skills training.
----------------------	-----------------------------

Schmitman 2011

Reason for exclusion	Wrong study design
----------------------	------------------------------------

Schmitmangen 2011

Reason for exclusion	Wrong study design
----------------------	--------------------

Waxmonsky 2008

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Webster-Stratton 2001

Reason for exclusion	Participants under five years of age.
----------------------	---------------------------------------

Webster-Stratton 2004

Reason for exclusion	Participants under five years of age.
----------------------	---------------------------------------

Williams 1993

Reason for exclusion	Not a randomised clinical trial.
----------------------	----------------------------------

Wolraich 1978

Reason for exclusion	Not social skills training.
----------------------	-----------------------------
